

Dear player in solar technologies,

We invite you to a roundtable session “room with a view” on the topic “Building integrated solar technologies” (BIST):

Tuesday, 7th of February 2012
14.30-18.15
Centipedes building on AVANTIS Business Center,
Snellius 1, Heerlen

What is the idea behind the upcoming “room with a view”?

Within the project “TOP TECHNOLOGY CLUSTERS” (TTC) nineteen partners have joint forces in order to strengthen cross-border cooperation in the greater Euregio Meuse-Rhine area, especially between SMEs (MKW, PME, KMU). For more information see: www.ttc-innovation.eu.

The aim of the upcoming round-table session is to make players within the solar industry start thinking outside the box and create cooperation consortia on the topics “PV-production”, “PV for the built environment” (PV components, PV-recycling, BIST services (e.g. market analysis, marketing), “Hybrid systems” (PV and solar thermal technologies) and “Solar energy storage”. These consortia are then invited to write project proposals for cross-border cooperation with which to apply for funding in May 2012 (preparatory stage: innovation vouchers of € 5.000 100% granted; development stage: € 100.000 – 250.000 per consortia) via a fast and easy procedure!

Program

- 14:30 Reception
- 14:45 Introduction / Opening remarks
Moderation: Prof. Dr. Drs. ir. Christoph Maria Ravesloot, Universiteit Rotterdam
- 14:50 **Funding for innovative cross-border cooperation (vouchers and innovation funds)**
Nora Robertz, TTC Project Manager, Stadt Aachen
- 15:05 **Short walk to energy efficient model building / “De Wijk van Morgen”**
- 15:35 **Aachen international: How a top Company from Aachen keeps the Leadership for Solar Cooling, Steam and Electricity Generation**
Dr. Ahmet Lokurlu, SOLITEM GmbH, Winner Global Energy Award 2011, www.solitem.de
- 16:00 “Room with a view” sessions
- 18:00 Conclusions

For registration please click here: <http://www.uhasselt.be/ttc-roomwithaview>. Deadline for registration is January, the 27th 2012.
